University Of Washington

Seattle, WA | SEP 2015 - MAR 2017

M.S in Human Centered Design &

Engineering | CGPA 3.92 / 4.00

Experience

The Home Depot

Sr. UX Designer | Enterprise UX | APR 2018 - PRESENT

Designed & shipped internal software tools and applications for The Home Depot's Fulfillment Centers that have increased the Outbound efficiency by >25% and Inbound efficiency by >100% resulting in cost savings and better online customer shopping and delivery experience.

Designed a software platform from the ground up to provide operational visibility to the leaders and supervisors at The Home Depot's next-generation fulfillment centers. Defined the front-end patterns, interactions and components to suit the unique needs and use cases.

Influenced the culture of the product and UX teams through education, empathy and inclusion resulting in increased User-Centered thinking within the product team and better collaboration within the team.

UW Medicine

UX Designer [Contract] | DEC 2017 - MAR 2018

Owned the responsibility and delivered 14 high-fidelity, production-ready web and mobile screen mockups in 2 days, after the contracted design agency was unable to deliver the designs on-time. As a result, there was no delay in the project timelines and the new website was launched as scheduled.

Premiera Blue Cross

UX Designer [Contract] | MAY 2017 - DEC 2017

Led the UX efforts to help Premiera's customers confidently find the providers or facilities covered by their insurance plan by designing an efficient Provider Search tool.
